

TENANT INFORMATION ADVISORY

Retention: Indefinite

January 27, 2017

17-006

OIL CAN RECYCLING PROGRAM

This Advisory has been issued to raise awareness of the new oil can disposal program at BWI Marshall Airport. An additional container has been placed at the existing waste recycling area by G Gate for the disposal of all oil containers at the Airport. Utilizing the new A-frame container will help minimize damage caused to compactors by leaking oil, as well as reduce the possibility of an accident/incident related to improper disposal of oil containers.

If you have any questions about the new container, please contact Edwin Maker, Sr. at 410-859-7538 or by email at emaker@bwiairport.com.

Thank you for your participation and your efforts to increase recycling at BWI Marshall Airport as we lead the way to making the Airport environmentally friendly.
