DOOR ALARM MONITORING AND REPORTING

Effective Wednesday, August 15, 2018 at 3:00 p.m., the Office of Airport Security will transition all door alarms that are activated within the Sterile and Secured areas of the Terminal Building from MDTA Police to our contract security partner. These are the doors located beyond the security checkpoint and are mainly in the flight departure and arrival locations. This includes all passenger boarding bridge doors and adjacent stairwell doors. Should an alarm activate along with the flashing strobe, please contact our contract security at 410-859-7546. A placard referencing the number to call when activations occur will be posted at the doors. Failure to call in the activation may result in a security violation as mentioned in our training video.

All door alarm activations in the Public Areas, General Aviation, Parking Garage, and Cargo locations shall be directed to MDTA Police at 410-859-7040. **Please continue to contact the MDTA Police at 410-859-7040 for all emergencies.**

In the future, we will modify the back of the BWI Marshall Airport SIDA badge to reflect this change.

Should you have any questions, please contact Robert Boblitz, Manager of Airport Security at 410-859-7722. Thank you for keeping our Airport safe and secure.
